

Medical Assistance Guideline:

If a crew member is injured during the voyage and the vessel calls at the Port of Paranagua and Antonina, it is imperative that the shipowner contacts the local P&I Club Correspondent.

Our firm is fully prepared to assist the Master and the crew, drawing on extensive experience in handling a wide range of personal injuries and illnesses.

We can promptly arrange medical assistance for crew members, as we maintain a well-established medical network in Paranagua and the capital of the state of Parana, Curitiba, where reference medical facilities are located, in case of more serious cases that demand specialized Medical attendance.

We are also able to monitor the seafarer's condition and progress, providing regular reports as required.

In the unfortunate event of loss of life, our firm has considerable experience in arranging the repatriation of remains and personal effects, as well as coordinating funeral services in Paranagua.

Finally, we are also prepared to engage our in-house lawyers to assist the Master and crew during the local authorities' inquiries, usually commenced by the Navy Authority, and eventually by the Federal Police, when the injuries or deaths arise from an accident or crime occurred on board.
